

RYDER PRO

Electric Off Road!

An electric mountain bike featuring torque sensing pedals. An exceptional go anywhere bike.

The alternative to the Ryder Pro Mid represents **excellent value for money** with its rear hub motor and especially clever torque sensing crank for instant response. It is also an **off-road bike that performs well on the roads or cycleways**. Brilliant on hills and soft terrain. Easy to ride.

- Strong frame with 27.5 inch wheels and small block off-road tyres
- Samsung 36-volt 13-amp hour lithium battery
- Bafang rear hub 250-watt motor with torque sensing crank
- Large LCD display
